OGS Group engages Quality consultant

PERTH-based consultancy services provider OGS Group has appointed senior quality professional, Paola Webb.

Ms Webb, a Director of Webb Project Services and former Quality & HSEQ Management System Manager at INPEX, has been engaged by OGS to assist with obtaining the latest ISO9001:2015 certification and further provide continuous improvement opportunities.

A dedicated quality professional, Paola has created and implemented numerous integrated quality management systems and has a diverse knowledge of the functions required to maintain a successful business.

OGS Group Chief Executive Jason Antunovich said Ms Webb's strong credentials in quality management and the resources sector would add enormous value to the company.

"Paola has more than 20 years' experience working with similar organisations and on similar quality assurance projects that will proved invaluable in OGS successfully obtaining the latest ISO certification standard in such a short timeframe ," said Mr Antunovich.

Prior to commencing her role as Project Quality Manager at INPEX in November 2012, Ms Webb was General Manager – Fit for Business at Downer Engineering, where she led and managed Downer Infrastructure West's Continuous Improvement Program.

Paola also led the Quality and Business Improvement teams at AusGroup from 2009 to 2011, and was Group Manager for Quality at Clough from 2005 to 2009.
